

# **LMI Monthly Update**

Head of Equities & Funds Research: Claire Aitchison

### **LMI Market News**

### VG1 - Rob Luciano Taking a Break

On 8 June 2023, VGI Partners Global Investments Limited (ASX: VG1) announced that the Portfolio Manager, Rob Luciano, will be taking a 3 month sabbatical. Marco Anselmi and Simon Birrell will maintain the day-to-day responsibilities of the portfolio in Rob's absence, with oversight from the CIO of Regal Funds Managements, Philip King. The sabbatical comes after the completion of the merger between VGI Partners and Regal Funds Management and Rob feeling comfortable with the operational and investment support provided by the Regal team.

The VG1 portfolio has performed better in CY'23 thus far with the NTA (including dividends) increasing 18.1% over the five months to 31 May 2023, however the performance of the portfolio has been disappointing since the Company listed with the NTA at May-end below the NTA at listing.

### **PGG Delisting Approved by ASX**

As we detailed in our last monthly update, Partners Group Global Income Fund (ASX: PGG) is seeking to delist from the ASX and continue to operate the fund as an unlisted unit trust. During the month, PGG received formal approval from the ASX for the trust to delist, subject to unitholder approval. An Extraordinary General Meeting is scheduled for 2 August 2023, with the last day of trading expected to be 17 November 2023 in the event the proposal is approved. PGG is providing unitholders plenty of time to exit their investment in the event they do not wish to remain a unitholder in the unlisted structure.

### **MEC Exploring Options to Narrow Discount**

On 28 June 2023, Morphic Ethical Equities Fund Limited (ASX: MEC) stipulated in a letter to shareholders that "the Board is monitoring the discount to NTA and is exploring a range of other options that could potentially deliver a return that is closer to NTA." The statement comes in response to feedback from shareholders regarding the discount and portfolio performance. To date, MEC has sought to address the discount through the following initiatives:

- Increasing the size and frequency of dividends with a DRP.
   MEC increased the frequency of dividends from semi-annual to quarterly commencing in 1Q'CY22;
- Increasing the marketing and reporting of the performance of the portfolio in order to grow the Company and keep shareholders informed; and
- Implementing a share buy-back. MEC has bought back 645,573 shares.

The Company intends to provide regular updates to the market regarding its strategy to manage the discount as the process unfolds.

### KKC Announces Substantial Increase to Target Distribution

On 27 June 2023, KKR Credit Income Fund (ASX: KKC) announced a target distribution for the FY24 period of 1.67 cents per unit per month (a total of 20 cents per unit). The target distribution represents a 52% increase from the current monthly distribution of 1.09 cents per unit. The increased target distribution reflects the increased yields and credit spreads in global credit markets expected by the Manager combined with the cessation of the buyback program and the redistribution of income to unitholders. The uplift in the distribution represents an attractive distribution yield of 10.7% based on the unit price as at 27 June 2023. After buying back over \$100m in KKC units, IIR views the reallocation of this income as distributions to unitholders as a significant positive for investors.

### **BTI Benefits from Investment Company Acquisitions**

Bailador Technology Investments Limited (ASX: BTI) announced the acquisition of two of the companies in the portfolio in June.

- 1) Rezdy entered into an agreement to sell the business to a US Private Equity Fund. The transaction was completed in June and resulted in a 46% uplift in the valuation of the company. BTI elected to roll 100% of its investment into the acquisition vehicle and has invested an additional \$2.5 million in the vehicle. BTI first invested \$2.5 million in Rezdy in October 2015, with a total of \$12.6 million invested including the latest follow on investment of \$2.5 million.
- 2) The Company exited its investment in InstantScripts after shareholders accepted the sale of the company to Australian Pharmaceutical Industries Pty Ltd, a wholly owned subsidiary of Wesfarmers Limited. The transaction has resulted in BTI expected to realise \$52 million cash from the transaction. The sale price represented a 25% increase in the carrying value of the investment. The sale is subject to final completion adjustments and is anticipated to be completed in early July.

### **EAFZ Commences Trading**

During the month, the Ellerston Asian Growth Fund (Hedge Fund) (ASX: EAZF), commenced trading with 18.05 million units on issue. EAFZ was created to address the lack of liquidity and other structural issues experienced by Ellerston Asia Investments Limited (ASX: EAI) with the conversion of EAI into an ETMF structure providing investors a structure that trades closer to the value of the portfolio and that is capable of growing given the open-ended structure of an ETMF. 14,998,520 EAFZ securities were issued to EAI shareholders.

# FOR Advises Indicative Semi-Annual Distribution of 3 Cents Per Unit

On 14 June 2023, Forager Australian Shares Fund (ASX: FOR) advised it estimates a distribution of 3 cents per unit for the half-year period ending 30 June 2023. The distribution is an estimate only, the actual distribution amount may differ. Given FOR is trading at a discount to NAV, the Fund has suspended the operation of the DRP until further notice.

### RF1 to Pay a Semi-Annual Distribution

On 26 June 2023, Regal Investment Fund (ASX: RF1) advised that the Fund will pay a distribution for the half-year ended 30 June 2023. The distribution is estimated to be 6 cents per unit, however the actual distribution amount may differ to the estimated amount. The DRP will be available to unitholders. Units issued under the DRP are issued at the lower of the market price or NAV.

### **Active ETFs**

### **About Active ETFs**

Active ETFs are a type of exchange traded product (ETP) traded on the ASX and Cboe Australia. While traditional exchange traded funds (ETFs) adopt passive strategies that synthetically track the performance of an index or other benchmark. Active ETFs are actively managed funds. The legal structure is the same as a traditional managed fund. but the units can be bought and sold on the ASX just like shares. Unlike listed investment companies, Active ETFs are open-ended with a market maker. This ensures the units trade close to net asset value. The manager issues new units as required to meet market demand.

### WHO IS IIR?

Independent Investment Research, "IIR", is an independent investment research house based in Australia and the United States. IIR specialises in the analysis of high quality commissioned research for Brokers, Family Offices and Fund Managers. IIR distributes its research in Asia, United States and the Americas. IIR does not participate in any corporate or capital raising activity and therefore it does not have any inherent bias that may result from research that is linked to any corporate/ capital raising activity.

IIR was established in 2004 under Aegis Equities Research Group of companies to provide investment research to a select group of retail and wholesale clients. Since March 2010, IIR (the Aegis Equities business was sold to Morningstar) has operated independently from Aegis by former Aegis senior executives/shareholders to provide clients with unparalleled research that covers listed and unlisted managed investments, listed companies, structured products, and IPOs.

IIR takes great pride in the quality and independence of our analysis, underpinned by high caliber staff and a transparent, proven and rigorous research methodology.

#### INDEPENDENCE OF RESEARCH ANALYSTS

Researchanalysts are not directly supervised by personnel from other areas of the Firm whose interests or functions may conflict with those of the research analysts. The evaluation and appraisal of research analysts for purposes of career advancement, remuneration and promotion is structured so that non-research personnel do not exert inappropriate influence over analysts.

Supervision and reporting lines: Analysts who publish research reports are supervised by, and report to, Research Management. Research analysts do not report to, and are not supervised by, any sales personnel nor do they have dealings with Sales personnel

Evaluation and remuneration: The remuneration of research analysts is determined on the basis of a number of factors, including quality, accuracy and value of research, productivity, experience, individual reputation, and evaluations by investor clients.

### INDEPENDENCE - ACTIVITIES OF ANALYSTS

IIR restricts research analysts from performing roles that could prejudice, or appear to prejudice, the independence of their research.

Pitches: Research analysts are not permitted to participate in sales pitches for corporate mandates on behalf of a Broker and are not permitted to prepare or review materials for those pitches. Pitch materials by investor clients may not contain the promise of research coverage by IIR.

No promotion of issuers' transactions: Research analysts may not be involved in promotional or marketing activities of an issuer of a relevant investment that would reasonably be construed as representing the issuer. For this reason, analysts are not permitted to attend "road show" presentations by issuers that are corporate clients of the Firm relating to offerings of securities or any other investment banking transaction from that our clients may undertake from time to time. Analysts may, however, observe road shows remotely, without asking questions, by video link or telephone in order to help ensure that they have access to the same information as their investor clients.

Widely-attended conferences: Analysts are permitted to attend and speak at widely-attended conferences at which our firm has been invited to present our views. These widely-attended conferences may include investor presentations by corporate clients of the Firm.

Other permitted activities: Analysts may be consulted by Firm sales personnel on matters such as market and industry trends, conditions and developments and the structuring, pricing and expected market reception of securities offerings or other market operations. Analysts may also carry out preliminary due diligence and vetting of issuers that may be prospective research clients of ours.

#### INDUCEMENTS AND INAPPROPRIATE INFLUENCES

IIR prohibits research analysts from soliciting or receiving any inducement in respect of their publication of research and restricts certain communications between research analysts and personnel from other business areas within the Firm including management, which might be perceived to result in inappropriate influence on analysts' views.

Remuneration and other benefits: IIR procedures prohibit analysts from accepting any remuneration or other benefit from an issuer or any other party in respect of the publication of research and from offering or accepting any inducement (including the selective disclosure by an issuer of material information not generally available) for the publication of favourable research. These restrictions do not preclude the acceptance of reasonable hospitality in accordance with the Firm's general policies on entertainment, gifts and corporate hospitality.

#### DISCLAIMER

This publication has been prepared by Independent Investment Research (Aust) Pty Limited trading as Independent Investment Research ("IIR") (ABN 11 152 172 079), an corporate authorised representative of Australian Financial Services Licensee (AFSL no. 410381.
