Vaughan Nelson Global Equity SMID Fund (Quoted Managed Fund) (ASX: VNGS) Commences Trading

The Vaughan Nelson Global Equity SMID Fund (Quoted Managed Fund) is a newly established Exchange Traded Managed Fund (ETMF) with the ASX code VNGS. The Fund commenced trading on 1 June 2022. The Fund provides exposure to the Vaughan Nelson Global SMID Cap strategy, which has an inception date of June 2020. The Fund is the quoted class of the investment strategy with the strategy also being offered through an unlisted unit trust. The Fund seeks to provide exposure to small and mid cap global equities with the objective of outperforming the MSCI ACWI SMID Cap Index, after fees and expenses and before taxes, on a rolling five year basis.

The portfolio will be managed by Vaughan Nelson Investment Management L.P, a US based asset manager that was founded in 1970 and provides equity and fixed income strategies with US\$15.5b AUM as at 31 December 2021. The Manager has a fundamental, bottom-up investment process with a targeted return approach. The portfolio only incorporates stocks that the Manager believes can generate returns of 50%+ over a three-year period (~15%p.a. compounded), in the event the investment thesis plays out as expected. The Manager seeks to take advantage of shortterm inefficiencies to generate excess returns. The portfolio will typically comprise 40-80 positions with the allocation to a single investment typically not exceeding 5% at the time of investment and the top 10 holdings typically accounting for 20%-25% of the portfolio. The strategy is managed in a benchmark unaware manner with the portfolio typically having an active share of greater than 90%. The Manager uses proprietary factor analysis to ensure that the portfolio is diversified across factors and that the strategy does not have unintended factor bets. This allows the Manager to build a relatively concentrated portfolio while being representative of the investment universe from a risk profile perspective.

Independent Investment Research (IIR) has assigned the Vaughan Nelson Global Equity SMID Fund (Quoted Managed Fund) (ASX: VNGS) an Investment Grade rating. The rating should be considered in conjunction with the full report which can be found on the IIR website (www.independentresearch.com.au).

IIR Reaffirms Recommended Plus Rating for NB Global Corporate Income Trust (ASX: NBI)

During the month, IIR reaffirmed its Recommended Plus rating for NBI. NBI is the only actively managed listed managed investment on the ASX that focuses solely on global high yield bonds. The Trust seeks to provide unitholders with a consistent and stable monthly income stream, while achieving an attractive level of total return over a full market cycle. The Trust has met its target yield objective since listing. NAV volatility is expected to be heightened in the short-to-medium term given the current inflationary environment and forecast interest rate rises. The price of bonds have an inverse relationship with interest rates which will drive this volatility. However, its important to note that the portfolio is actively managed and therefore the current environment will present investment opportunities as well. The Trust has traded at a discount to NAV since the market shock in 2020 and the recent market volatility has seen the discount expand. The Trust has a unit buy-back in place to assist with addressing the discount however we believe performance and unitholder engagement will be the key drivers to managing the discount. The full report can be found on the IIR website.

IIR Reaffirms Recommended Rating for ECP Emerging Growth Limited (ASX: ECP)

During the month, IIR reaffirmed its Recommended rating for ECP. ECP provides exposure to a long only concentrated portfolio of ex-50 ASX-listed companies. The Company's objectives are to: (1) provide medium-to-long term capital growth and income through investing in a portfolio of small and mid-cap Australian companies; (2) preserve and enhance the NTA backing per share; and (3) provide shareholders a fully franked dividend, which over time, will grow at a rate in excess of the rate of inflation. ECP has largely delivered on its investment objectives to date, with shareholders benefiting from a regular and growing fully franked dividend. The Manager has a disciplined investment process that has seen the portfolio outperform the broader market over medium-to-long term periods. Recent volatility in the portfolio has seen the portfolio underperform over the 12-months to 31 March 2022 and highlights the additional risk associated with concentrated portfolios and smaller cap stocks. Alignment of interest is strong with the CIO of the Manager, Dr. Emmanuel Pohl, being the largest shareholder of the Company, owning ~30% of the shares on issue. A key drawback of the Company is the limited liquidity with the Company having just 18.3m shares on issue and a small free float. We attribute the lack of liquidity as a key contributor to the discount to NTA that the Company has traded at throughout its history. The lack of liquidity is not as much an issue for long-term investors that have no intention of exiting the investment, however can be an issue for those seeking to enter or exit the stock in a timely manner. The full report can be found on the IIR website.

The Company will seek to pay a fully franked dividend of 4%p.a of the pre-tax NTA, payable half yearly. Each semi-annual dividend will equate to 2% of the pre-tax NTA at 30 June and 31 December each year. The Company has announced that it will pay a fully franked special dividend to shareholders on the release of the FY22 results of 2% of the pre-tax NTA. This will result in a dividend equating to 4% of pre-tax NTA for the FY22 period (the 2% regular dividend and 2% special dividend).

Based on the latest NTA release for 30 April 2022 and the share price as at 31 May 2022, BTI is trading at a substantial discount to both pre-tax and post-tax NTA of 30.3% and 17.9%, respectively. The 4% dividend would represent a net yield of 5.7% based on the pre-tax NTA as at 30 April 2022 and the share price at 31 May 2022.

CAM Provides Update on Dividend Coverage

On 30 May 2022, Clime Capital Limited (ASX: CAM) provided an update to the market regarding the franking credits and profit reserve accounts. These are important to the Company given its core objective is to provide an above market fully franked dividend yield.

CAM expects the franking balance to reach \$2.7m as at 30 June 2022 with a profit reserve of \$29.9m. The profit reserve provides dividend coverage of ~21 cents per share and the expected franking balance provides CAM the ability to pay fully franked dividends of up to 4.5 cents per share before inflows of further franking credits.

Active ETFs

About Active ETFs

Active ETFs are a type of exchange traded product (ETP) traded on the ASX and Cboe Australia. While traditional exchange traded funds (ETFs) adopt passive strategies that synthetically track the performance of an index or other benchmark. Active ETFs are actively managed funds. The legal structure is the same as a traditional managed fund. but the units can be bought and sold on the ASX just like shares. Unlike listed investment companies, Active ETFs are open-ended with a market maker. This ensures the units trade close to net asset value. The manager issues new units as required to meet market demand.

WHO IS IIR?

Independent Investment Research, "IIR", is an independent investment research house based in Australia and the United States. IIR specialises in the analysis of high quality commissioned research for Brokers, Family Offices and Fund Managers. IIR distributes its research in Asia, United States and the Americas. IIR does not participate in any corporate or capital raising activity and therefore it does not have any inherent bias that may result from research that is linked to any corporate/ capital raising activity.

IIR was established in 2004 under Aegis Equities Research Group of companies to provide investment research to a select group of retail and wholesale clients. Since March 2010, IIR (the Aegis Equities business was sold to Morningstar) has operated independently from Aegis by former Aegis senior executives/shareholders to provide clients with unparalleled research that covers listed and unlisted managed investments, listed companies, structured products, and IPOs.

IIR takes great pride in the quality and independence of our analysis, underpinned by high caliber staff and a transparent, proven and rigorous research methodology,

INDEPENDENCE OF RESEARCH ANALYSTS

Researchanalysts are not directly supervised by personnel from other areas of the Firm whose interests or functions may conflict with those of the research analysts. The evaluation and appraisal of research analysts for purposes of career advancement, remuneration and promotion is structured so that non-research personnel do not exert inappropriate influence over analysts.

Supervision and reporting lines: Analysts who publish research reports are supervised by, and report to, Research Management. Research analysts do not report to, and are not supervised by, any sales personnel nor do they have dealings with Sales personnel

Evaluation and remuneration: The remuneration of research analysts is determined on the basis of a number of factors, including quality, accuracy and value of research, productivity, experience, individual reputation, and evaluations by investor clients.

INDEPENDENCE - ACTIVITIES OF ANALYSTS

IIR restricts research analysts from performing roles that could prejudice, or appear to prejudice, the independence of their research.

Pitches: Research analysts are not permitted to participate in sales pitches for corporate mandates on behalf of a Broker and are not permitted to prepare or review materials for those pitches. Pitch materials by investor clients may not contain the promise of research coverage by IIR.

No promotion of issuers' transactions: Research analysts may not be involved in promotional or marketing activities of an issuer of a relevant investment that would reasonably be construed as representing the issuer. For this reason, analysts are not permitted to attend "road show" presentations by issuers that are corporate clients of the Firm relating to offerings of securities or any other investment banking transaction from that our clients may undertake from time to time. Analysts may, however, observe road shows remotely, without asking questions, by video link or telephone in order to help ensure that they have access to the same information as their investor clients.

Widely-attended conferences: Analysts are permitted to attend and speak at widely-attended conferences at which our firm has been invited to present our views. These widely-attended conferences may include investor presentations by corporate clients of the Firm.

Other permitted activities: Analysts may be consulted by Firm sales personnel on matters such as market and industry trends, conditions and developments and the structuring, pricing and expected market reception of securities offerings or other market operations. Analysts may also carry out preliminary due diligence and vetting of issuers that may be prospective research clients of ours.

INDUCEMENTS AND INAPPROPRIATE INFLUENCES

IIR prohibits research analysts from soliciting or receiving any inducement in respect of their publication of research and restricts certain communications between research analysts and personnel from other business areas within the Firm including management, which might be perceived to result in inappropriate influence on analysts' views.

Remuneration and other benefits: IIR procedures prohibit analysts from accepting any remuneration or other benefit from an issuer or any other party in respect of the publication of research and from offering or accepting any inducement (including the selective disclosure by an issuer of material information not generally available) for the publication of favourable research. These restrictions do not preclude the acceptance of reasonable hospitality in accordance with the Firm's general policies on entertainment, gifts and corporate hospitality.
